1. General, scope of license etc.

These license terms apply to Licensees' (as defined below) right to use Möbelfakta, which is owned and provided by Möbelfakta Sverige AB, org. no. 559252-0810. The license is non-exclusive, non-transferable and limited as set forth below.

These license terms are attached to License agreement on right to use Möbelfakta, which is entered into by a company or other legal person (the "Licensee") for the Licensee's and its employees' and contractors' ("Users") access to and use of Möbelfakta.

Möbelfakta is a reference and labelling system for furniture, primarily designed to facilitate the setting of requirements in procurements. The aim is also to convey confidence to the Licensee's customers, i.e. that they should feel confident that the name Möbelfakta and the Möbelfakta Brand (Swedish figurative mark with registration number 524049) are stated only in connection with products manufactured with regard to quality, environment and responsible supply chains in accordance with what is stated in Möbelfakta's applicable Specification. Möbelfakta and its Specification for declaration of furniture are based on CEN, ISO and SIS standards as well as environmental criteria and ethical guidelines continuously being developed, hence Möbelfakta is continually developed and its requirements are changing over time.

Möbelfakta implies self-declaration of products by the Licensee which is performed by its appointed assessor. Licensees must always undergo verification of the first product in accordance with point 8 before further products can be declared. All Licensees intending to declare products in Möbelfakta shall at all time during the license period have at least one User who has been trained by Möbelfakta Sverige AB and is registered as an assessor.

The Users are given access to Möbelfakta by applying, paying application fee, and register as User, after which Möbelfakta Sverige AB provides login details for the User. The login details are for registered Users only and personal for them.

Furniture declarations for the Licensee's individual products shall be made by an assessor who shall certify that the product meets Möbelfakta's Specification. The

furniture declaration shall thereafter be sent to an auditor appointed by Möbelfakta Sverige AB, who on behalf of Möbelfakta Sverige AB decides whether the declaration can be approved. After approval of the furniture declaration Möbelfakta Sverige AB issues a Möbelfakta certificate provided that the CEO and assessor, through signing of the declaration shows that all requirements under section 3 below are met.

However, the Licensee has the right to use the Möbelfakta Brand on its products as well as in marketing and information materials for declared products, according to the guidelines set out below, only after the approval of the furniture declaration and a Möbelfakta certificate has been issued for the product, as well as once the Licensee has paid the applicable annual fee and declaration fee for the product.

Möbelfakta's website, www.mobelfakta.se, is open for everyone to use. For instance, all manufacturers are able to access information on the website and adjust their products to Möbelfakta's requirements. However, it is only Licensees who have been granted a license under these license terms, and paid the applicable fees, that has a non-exclusive, non-transferable and limited right to declare products under Möbelfakta and to use the Möbelfakta Brand as set out below.

A manufacturer who has not been granted a license to Möbelfakta under these license terms may therefore not use the Möbelfakta Brand, or any expressions, symbols or marks which are confusable with the Möbelfakta Brand. All rights attributable to Möbelfakta and its contents, including copyright and all other intellectual property rights attributable to the development of Möbelfakta, the compilation of the contents of Möbelfakta and the individual materials in Möbelfakta are owned by Möbelfakta Sverige AB.

Procurers and purchasers of furniture may use the name "Möbelfakta" in connection with the specifications for procurement and purchasing of furniture.

A right to this license requires that the Licensee pays the applicable annual fee per calendar year. The Licensee is also obliged to pay Möbelfakta Sverige AB a declaration fee per furniture declaration, to be paid after Möbelfakta Sverige AB has approved the furniture declaration, as well as a fee for renewal upon renewal of the declaration. Fees applicable under these license terms are set out in Fees for Möbelfakta, appendix 2 to the License agreement on right to use Möbelfakta, as well as stated on Möbelfakta's website, www.mobelfakta.se.

Payment of fees under these license terms shall be made within thirty (30) days from the date of invoice of Möbelfakta Sverige AB.

For the avoidance of doubt, the Licensee is responsible, as for its own part, for the fulfilment of these license terms for any subcontractor or other third party appointed by the Licensee under section 13 below.

To ensure compliance with Möbelfakta's requirements, an on-site visit at the final manufacturing site is always required. However, manufacturing outside Europe* presents several challenges, including higher risks, environmental impacts, language

and cultural barriers, and significant costs. This process includes requirements for third-party on-site audits and specific conditions for audits conducted outside Europe*. Third-party audits of final manufacturing site(s) located outside Europe* must have been conducted in addition to Möbelfakta's on-site audits of final manufacturing site(s) within Europe*.

The third-party audit must cover requirements equivalent to Möbelfakta section 3.1 – Requirements within human rights, labour rights, environment, and anti-corruption. In order to be accepted, the audit must be conducted in accordance with one of the standards approved by Möbelfakta, as outlined in separate guidance.

A corresponding audit report must be submitted and must not be older than two years. The report will only be accepted if the audit confirms compliance with the respective standard and no open non-conformities conflicting with Möbelfakta's requirements are present.

The audit shall be performed by an independent and accredited entity with documented experience in auditing operations in high-risk countries, to ensure credibility and impartiality of the assessment.

If any deviation from information provided upon declaration or from any applicable license terms or Specification is discovered, Möbelfakta Sverige AB will issue a report of the deviation which will be communicated with the Licensee. If the Licensee does not submit the requested documentation collected at the specified times or if the documentation is deficient and needs to be supplemented, charges will be made on an ongoing basis according to Post-audit fees in Fees for Möbelfakta, Appendix 2.
